

INDEX

- Abdomen, losses due to injuries to, 108
- Accident, and production rates, magnitude of changes in, 65-75
 frequency rate of industry, percentage of decrease of, 22
 mortality rate, downward trend, 1
 prevention, executive responsibility for, 33-34
 problem affected by mechanization, 5
 seriousness, 1-3, 5
 rates and trends. *See* under name of product
 rates, comparison of reduction in, 77-80
 rates in terms of production, 82-102
 severity rate of industry, percentage of increase of, 22
- Accidents, control of, 6-7, 27-28
 experience of small companies unfavorably affects, 21
 increase in number and severity of, 2
 individual, study of, 103-111, 404-406
 in terms of production, 6
 lost-time, definition of, 18-19
- Acid and heavy chemical companies, trends in accident and production rates in terms of man-hours, 26, 38, 39, 40, 124-128
 trends in accident rates in terms of production, 84, 87
- Adding machine company, trends in accident and production rates in terms of man-hours, 237
- Aggregate experience secured, 116
- Agricultural implement companies, trends in accident and production rates in terms of man-hours, 26, 38, 40, 43, 189-190, 198-199
- Alford, L. P., vice-chairman of Committee on Safety and Production, 393
- Aluminum cooking utensil company, trends in accident and production rates in terms of man-hours, 263
- Aluminum mining company, trends in accident and production rates in terms of man-hours, 289
- American Electric Railway Association, data furnished by, 162
- American Iron and Steel Institute, cooperation of, 173
- Amputations, losses due to accidents resulting in, 106, 109
- Ankle, losses due to injuries to, 108
- Anthracite coal mining companies, aggregate experience of, 116
 trends in accident and production rates in man-hours, 39, 40, 59-60, 141-142
 trends in accident rates in terms of production, 84, 88
- Arm, losses due to injuries to, 108
- Assembling departments, losses due to accidents in, 104, 107
- Attainments in safety and production, 65-75
- Automobile companies, trends of accident and production rates in terms of man-hours, 31, 38, 40, 54, 190, 200-204
 trends in accident rates in terms of production, 84, 94
- Automobile leaf spring company, trends in accident and production rates in terms of man-hours, 205
- Automobile tire company, trends in accident and production rates in terms of man-hours, 386
- Automobile wheel company, trends in accident and production rates in terms of man-hours, 206
- Baby and doll carriage company, trends in accident and production rates in terms of man-hours, 356
- Baude, Walter A., field engineer, 396
- Beehive coke companies, aggregate experience of, 116
 trends in accident and production rates in terms of man-hours, 31, 38, 40, 54-55, 148-151
 trends in accident rates in terms of production, 84, 89
- Berresford, A. W., chairman of Committee on Safety and Production, 393
- Bituminous coal mining companies, aggregate experience of, 116
 trends in accident and production rates in terms of man-hours, 38, 40, 55, 142-143
 trends, in accident rates in terms of production, 84, 89
- Bleaching, dyeing, printing and cloth finish companies, trends in accident and production rates in terms of man-hours, 129-130
- Bluestone. *See* Sandstone and bluestone
- Boiler companies, trends in accident and production rates in terms of man-hours, 32, 39, 41, 59, 190, 207-212
- Bolt and pipe threading machinery company, trends in accident and production rates in terms of man-hours, 253
- Boot and shoe companies, trends in accident and production rates in terms of man-hours, 32, 39, 40, 59-60, 366, 369-371
 trends in accident rates in terms of production, 84, 86
- Box board companies, trends in accident and production rates in terms of man-hours, 33, 39, 41, 60-61, 300
- Boxes, paper. *See* Paper boxes
- Brass, bronze and copper products companies, trends in accident and pro-
