TABLES AND CHARTS

I. Scope and representativeness of the investigation:	
1. Scope of the investigation, 1922.....	17
2. Comparison of farms investigated in 1922 with the country as a whole in 1919 as regards the acreage of sugar beets harvested per farm.....	19
3. Relation of acreage of sugar beets harvested per farm to costs per acre and per ton.....	20
Comparison of farms investigated in the various States with the country as a whole as regards—	
4. Yields of sugar beets per acre.....	21
5. Sugar content of sugar beets.....	22
6. Sugar extracted per ton of beets.....	23
7. Sugar content <i>not</i> extracted.....	24
II. Costs of production and returns to growers, United States by States:	
8. Per acre of sugar beets harvested.....	25
9. Per ton of sugar beets harvested.....	26
10. Per pound of sugar extracted from the sugar beets.....	27
III. Costs of production and returns to growers, California, by areas:	
11. Per acre and per ton of sugar beets harvested.....	29
IV. Analysis of the average costs of production of sugar beets—Summary for the nine States investigated and for California, by areas:	
12. Per acre of sugar beets harvested.....	30
13. Per ton of sugar beets harvested.....	32
14. Percentage distribution of costs.....	34
15. Relation of yield to costs of production.....	35
V. Cumulation, at increasing costs of production per ton of sugar beets, of producing farms, and of acres and tons of sugar beets harvested, 1922:	
Combination of the data for the 22 areas investigated in the United States—	
16. Exclusive of capital charges.....	37
17. Inclusive of capital charges.....	39
Combination of the data for the three areas investigated in California—	
18. Exclusive of capital charges.....	41
19. Inclusive of capital charges.....	41
Data for each of the three areas investigated in California—	
20. Salinas, exclusive of capital charges.....	43
21. Salinas, inclusive of capital charges.....	43
22. Oxnard, exclusive of capital charges.....	45
23. Oxnard, inclusive of capital charges.....	45
24. Santa Ana, exclusive of capital charges.....	47
25. Santa Ana, inclusive of capital charges.....	47
VI. Labor costs, California, by areas:	
26. Labor cost rates per hour.....	48
27. Hours of direct labor per acre.....	48
28. Hours of direct and indirect labor per acre.....	48
