¹ Estimated.² As import statistics do not segregate plain and Jacquard-figured fabrics, computed duties and ad valorem equivalents are not shown (see footnote 3).³ For the purpose of computing duties it is estimated that 10 per cent of import values are Jacquard figured and 90 per cent plain fabrics.⁴ Act of 1930 provides for woven fabrics in the piece, not exceeding 30 inches in width, whether woven with fast or split edges, wholly or in chief value of silk, including umbrella silk or Gloria cloth, 60 per cent ad valorem.⁵ Import statistics are not available to compute the duties thereon. See footnote 3.⁶ Imports statistics not segregated to show whether the pile is wholly cut or wholly uncut or if partly cut. Of the two rates effective on silk velvets, the rate of 65 per cent ad valorem is here used for computation of duties as the bulk of the imports of velvets are of the type with a wholly-cut pile dutiable at this rate.⁷ Imports not segregated to show the effect of 65 per cent ad valorem if Jacquard figured.
