There has been purchased out of available cash (resulting from economies in lower building costs) \$602,000 of its \$1,500,000 twenty-five-year 6½% sinking fund, mortgage bonds for \$505,680 or in the first 10 months' operations, bonds equivalent to an amount required to be retired over the next nine years. In addition to the surplus created by this transaction a saving of interest charges of about \$25,000 per annum has been effected.
